EN 14351-1:2006+A1:2010

External pedestrian doors – Product: **contura frame**

Designed for use in buildings

| | |
|--|-------|
| Wind load: | npd |
| Watertightness: | npd |
| Height: | npd |
| Acoustic performance: | npd |
| Thermal transmittance (U-value): | |
| - Inward opening door 1230 x 2180 mm with 2 no. standard. glazings: | 1,5** |
| Air permeability: | npd |
| Radiation properties – Solar factor: 0,72 | |
| Radiation properties – Light transmittance : 0,80 | |

npd: no performance determined

**Regarding the thermal transmittance of actual doors, please contact Idealcombi A/S cf. EN 14351-1:2006+A1:2010, Table E.2 note d.
